

## Objective

Pharmaceutical sciences combine scientific aspects that are critical in the development and manufacture of new drugs, handling of medicines and medical devices. Drug design is the inventive process of finding new medications based on the knowledge of a biological target. In the most basic sense, drug design involves the design of molecules that are complementary in shape and charge to the biomolecular target with which they interact and therefore will bind to it. Drug design frequently but not necessarily relies on computer modeling techniques. Pharmaceutical Technology is concerned with the design and formulation of drugs into different dosage forms. It is also concerned with the development of new drug delivery systems that ensure drug efficacy with minimal side effects. Pharmacology is the study of the interactions that occur between a living organism and chemicals that affect normal or abnormal biochemical function. In the present conference, pharmaceutical experts will address the diverse aspects related to drug discovery and pharmaceutical technology.

## About the Association

Association of Pharmacy Professionals (APP) is a unique organization of more than 1500 dedicated professionals willing to serve pharmacy profession in dynamic ways and involves people from various arena including students, teachers, researchers, scientists as well as industry professionals. APP aids in extending the knowledge and facilities of several technical institutes, industries as well as health sectors to the remote areas where the service and live functionality of pharmacy profession is the real want. This humble act might be in the form of academic, research or health related activities. The association also share the responsibilities of professionals towards the community and social liabilities. APP accesses the availability of expertise when it needs and ensures that the systematic teaching learning activities not only occurs but also reach to the common knowledge development system by acting as source of fulfilment. Kindly visit the association website [www.appconnect.in](http://www.appconnect.in) for more details.

## About the Institute

S.R.L.T. Group of Institutions, Ekdil, Etawah is established in 2004 and founded by Late Shri Ram Lakhan Tiwari, a well renowned academician & his son Late Shri Ashish Tiwari secretary Shri Tirupati Shiksha Prasar Samiti, Ekdil. This organization is founded under the umbrella of Shri Tirupati Shiksha Prasar Samiti and credited with the crown of being pioneer in introducing quality pharmaceutical education. The institutions are established with the objective to promote high quality of academic and professional education, so as to prepare the students for rewarding and result oriented career in pharmaceutical profession. The Colleges are known for their systematic inquiry, the lucid way of teaching, and the commitment to service as guiding principles for our actions. We have established core principles as a way to express our dedication to excellence in education at all levels. We run courses like Diploma in Pharmacy and Bachelor of Pharmacy. Kindly visit our website <https://srlteducation.com> for more details.

## Oral/Poster Presentations

You are invited for oral/poster presentations of research papers and review articles related to theme of the conference. Abstract can be submitted at [principalrft2019@gmail.com](mailto:principalrft2019@gmail.com).

## Topics

Nanotechnology, bioavailability enhancement, bioavailability and bioequivalence studies, pharmacokinetics of novel drug delivery systems, preformulation considerations, medicinal chemistry, drug design and others topics relevant to the theme of conference.

## Eligibility

Students of D.Pharm, B. Pharm, M. Pharm, Pharm.D, Research Scholars and faculty members.
