

Objective

Pharmaceutical sciences combine scientific aspects that are critical in the development and manufacture of new drugs, handling of medicines and medical devices. Pharmacology is the branch of biology concerned with the study of drug action, where a drug can be broadly defined as any man-made, natural, or endogenous molecule which exerts a biochemical or physiological effect on the cell, tissue, organ, or organism. There are many chemicals with pharmacological properties, but need special measures to help them achieve therapeutically relevant amounts at their sites of action. Drug design is the inventive process of finding new medications based on the knowledge of a biological target. More specifically, pharmacology is the study of the interactions that occur between a living organism and chemicals that affect normal or abnormal biochemical function. In the present conference, pharmaceutical experts from various international/national organizations will address the diverse aspects related to pharmacy and pharmacological sciences.

About the Association

Association of Pharmacy Professionals (APP) is a unique organization of more than 1500 dedicated professionals willing to serve pharmacy profession in dynamic ways and involves people from various arena including students, teachers, researchers, scientists as well as industry professionals. APP aids in extending the knowledge and facilities of several technical institutes, industries as well as health sectors to the remote areas where the service and live functionality of pharmacy profession is the real want. This humble act might be in the form of academic, research or health related activities. The association also share the responsibilities of professionals towards the community and social liabilities. APP accesses the availability of expertise when it needs and ensures that the systematic teaching learning activities not only occurs but also reach to the common knowledge development system by acting as source of fulfilment. Kindly visit the association website www.appconnect.in for more details.

About the Institute

Shree Balaji Shikshan Prasarak Mandal was established in 1987, under the able and dynamic leadership of Mr. Rajkishor Kantaprasad Modi with the mission & objective of providing quality education in the field of professional colleges and basic education from K.G. to P.G. Over the period of last 25 years, the society has made remarkable progress and is acknowledged to be one of the best in Marathwada region. There are 6 institutes under the aegis of society offering fully fledged school education, Diploma, Graduation and Post graduation in Pharmacy. The SBSPM's B. Pharmacy College was established in 2010 and the first batch of B.Pharm has come out in July 2013. The college is situated in the Ambajogai, Beed district of Maharashtra. The B.Pharmacy has been approved by AICTE & PCI. The Institute fully complies in all respects as per the accreditation body. Kindly visit the institute website <http://copambajogai.org> for more details.
