

Objective

Pharmaceutical sciences combine scientific aspects that are critical in the development and manufacture of new drugs, handling of medicines and medical devices. Pharmacology is the branch of biology concerned with the study of drug action, where a drug can be broadly defined as any man-made, natural, or endogenous molecule which exerts a biochemical or physiological effect on the cell, tissue, organ, or organism. There are many chemicals with pharmacological properties, but need special measures to help them achieve therapeutically relevant amounts at their sites of action. Pharmacognosy is the study of medicines or crude drugs produced from natural sources such as plants, microbes, and animals. Biotechnology is a science-driven industry sector that uses living organisms and molecular biology to produce healthcare-related products. The most prominent area of biotechnology is the production of therapeutic proteins and other drugs through genetic engineering. Further, pharmacology is the study of the interactions that occur between a living organism and chemicals that affect normal or abnormal biochemical function. In the present conference, pharmaceutical experts from diverse international/national organizations will address the diverse aspects related to pharmacology and pharmaceutical sciences.

About the Association

Association of Pharmacy Professionals (APP) is a unique organization of more than 1500 dedicated professionals willing to serve pharmacy profession in dynamic ways and involves people from various arena including students, teachers, researchers, scientists as well as industry professionals. APP aids in extending the knowledge and facilities of several technical institutes, industries as well as health sectors to the remote areas where the service and live functionality of pharmacy profession is the real want. This humble act might be in the form of academic, research or health related activities. The association also share the responsibilities of professionals towards the community and social liabilities. APP accesses the availability of expertise when it needs and ensures that the systematic teaching learning activities not only occurs but also reach to the common knowledge development system by acting as source of fulfilment. Kindly visit the association website www.appconnect.in for more details.

About the Institute

SAASTRA was established under Venkateswara Educational Society in 2007 by Prof. G.H. Srinivasa Rao a renowned academician and scientist with the aim of providing qualitative education for the budding professionals in a sprawling campus of 8.5 acres with state of the art infrastructure at the lowest cost. SAASTR College of Pharmaceutical Education & Research is approved by All India Council for Technical Education (AICTE) – New Delhi, Pharmacy Council of India (PCI) – New Delhi, CPCSEA – New Delhi, Government of Andhra Pradesh (APSCHE)- and is affiliated to Jawaharlal Nehru Technological University Anantapur (JNTUA) – Anantapur, Andhra Pradesh. SAASTR College of Pharmaceutical Education & Research runs the UG and PG courses like B.Pharm, M.Pharm, Pharm.D and Pharm.D (PB). The SAASTR college main mission is to actively promote and preserve the higher values and ethics in education and research, and pursue excellence in these areas while consciously meeting the expectations of the students and the vision is to offer diverse educational programmes that facilitate the development of competent professionals and valuable citizens, who demonstrate excellence in the respective disciplines, while being locally and globally responsive in areas of education, employment and research. Kindly visit the college website <http://saastrapharmacycollege.edu.in> for more details.

Poster Presentations

You are invited for poster presentations of research papers and review articles related to theme of the conference. Abstract can be submitted at saastraprincipal@gmail.com.

Topics

Nanotechnology, bioavailability enhancement, pharmacy practice, pharmacokinetics of novel drug delivery systems, preformulation considerations, medicinal chemistry, drug design and others relevant topics.

Eligibility

Students of D. Pharm, B. Pharm, M. Pharm, Pharm. D, Research Scholars and faculty members.
