

Objective

Pharmaceutical sciences combine scientific aspects that are critical in the development and manufacture of new drugs, handling of medicines and medical devices. Pharmaceutical technology is one of the major branch of pharmaceutical sciences dealing with the composition, formulation, preparation or manufacturing and quality control of extemporaneously compounded or commercially manufactured drugs. AI systems can analyze diverse data types, such as genetic, proteomic, and clinical data, to identify potential therapeutic targets. By uncovering disease-associated targets and molecular pathways, AI assists in the design of medications that can modulate biological processes. Herbal medicine (HM) is the fulcrum of complementary and alternative medicine, which in recent times is increasingly gaining widespread popularity all over the world and gradually streaming toward integration into the mainstream healthcare systems. In the present conference, pharmaceutical experts from various international/national organizations will focus the different aspects related to pharmaceutical sciences including artificial intelligence.

About the Association

Association of Pharmacy Professionals (APP) is a unique organization of more than 2000 dedicated professionals willing to serve pharmacy profession in dynamic ways and involves people from various arena including students, teachers, researchers, scientists as well as industry professionals. APP aids in extending the knowledge and facilities of several technical institutes, industries as well as health sectors to the remote areas where the service and live functionality of pharmacy profession is the real want. This humble act might be in the form of academic, research or health related activities. The association also share the responsibilities of professionals towards the community and social liabilities. APP accesses the availability of expertise when it needs and ensures that the systematic teaching learning activities not only occurs but also reach to the common knowledge development system by acting as source of fulfillment. Kindly visit the association website www.appconnect.in for more details.

About the Institute

VISTAS presents a cosmopolitan culture where students from a wide variety of social, cultural and geographical backgrounds live and study together. The vision of the institution is to establish an epitome of excellence in higher education by effectively providing high quality education and rigorous training to students in multiple streams of choice with ample scope for all round development to make them excel in their profession for betterment of the society. Vels College of Pharmacy was started by the Vaels Educational Trust in the year 1992. Time to time, the Vels College of Pharmacy had grown by introducing undergraduate, post graduate and Doctoral programmes in Pharmacy and in the year 2008 the college was transformed to School of Pharmaceutical Sciences under Vels Institute of Science Technology and Advanced Studies (VISTAS), deemed to be university estd U/S 3 of the UGC act, 1956. This institution keeps the quality and completeness of its students' education at the top most priority. Kindly visit the institute website School of Pharmaceutical Sciences – <https://vistas.ac.in/school-of-pharmaceutical-sciences/> for more details.

Poster Presentations

You are invited for poster presentations of research papers and review articles related to theme of the conference. Abstract can be submitted at sumithra.sps@velsuniv.ac.in.

Topics

Nanotechnology, bioavailability enhancement, bioavailability and bioequivalence studies, pharmacokinetics of novel drug delivery systems, preformulation considerations, medicinal chemistry, drug design and others topics relevant to the theme of conference.

Eligibility

Students of D. Pharm, B. Pharm, M. Pharm, Pharm. D, Research Scholars and faculty members.

Programme Schedule

12th August 2024

INAUGURATION 10.00 AM - 10.20 AM
